ABOUT MIMF

Malaysia International Lighting, LED & SIGN Exhibition (M'SIA-LIGHTING, LED & SIGN) is the leading trade event for signage, advertising equipment and LED related industry.

M'SIA-LIGHTING, LED & SIGN will continue to showcasing the latest technology and innovation solution and better serve the local & international industry players.

INDUSTRY OVERVIEW

Malaysia is now gaining prominence as a production hub for LED manufacturers. The development and production of LED clusters in the country cover semiconductor devices for LED, lighting produs an solutions. The growth of the LED industry is well supported by two government programmes: 1. The Economic Transformation Programme (ETP) and 2 The National Green Technology Policy, which aims to move the country towards a low carbon economy with sustainable development. With the government policy and effort to support the LED manufacturing, the projects will benefit the industry in terms of job creation and further strengthen the value chain of other local players in the LED industry as well as complete the LED ecosystem in Malaysia.

The LED market remains promision as global efforts turn to reducing carbon emission, increasing energy efficiency and public opinion shifts from nuclear energy to finding renewable energy. Energy efficiency will remain a key to driving the LED industry growth.

In recent years, advertising industry is adaption digital advertising significantly to reach audience more effectively and LED-signage is one of the best tools which shows a positive growth in the future.

Save the date and visit M'SIA-LIGHTING, LED & SIGN!

2019 STATISTICS

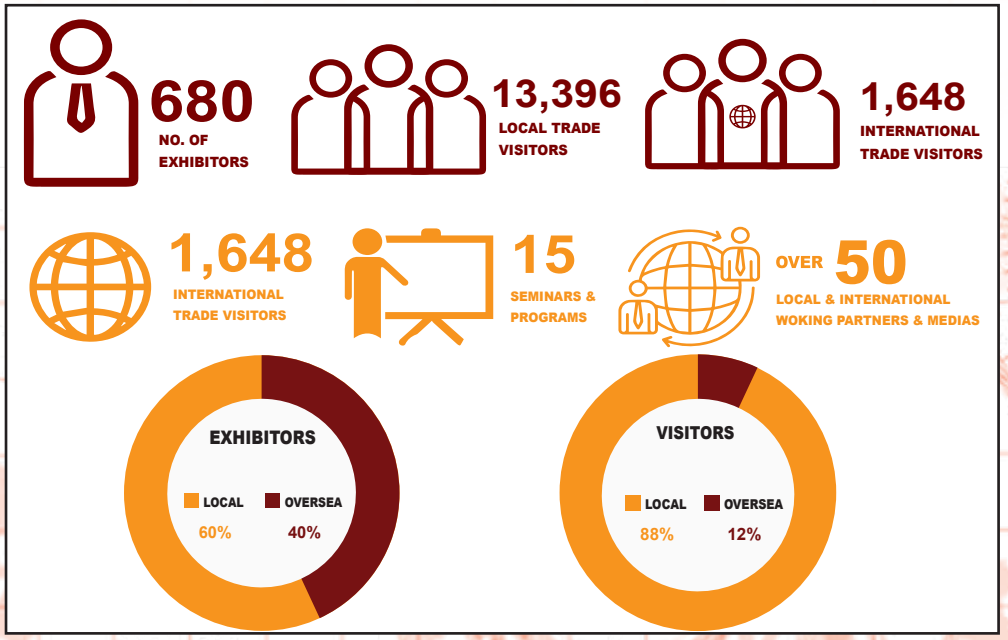

EXHIBIT PROFILE

SIGN-LED
- 3D Signage
- Signage System & Software
- Inkjet Materials
- Inkjet Printer & Ink
- High Performance UV Printer
- UV Flatbed
- Acrylic Materials
- Cutting Plotter
- Digital Printing & Graphic
- Display System
- Engraving Router
- Graphics Software & Hear Transfer
